

CULTURE OF Philanthropy

A closer look into the role of the Office of Philanthropy and Community Engagement.

We are deeply grateful to have you as part the New Garden Friends School Community! It is an exciting time at NGFS, and we're excited that your family is here for it!

Philanthropy directly impacts our students by working to support financial aid, staff professional development, student trips, arts, athletics. and much more. Our team enjoys connecting with all members of the school community and sharing more about our mission and plans for what's ahead.

WHO WE ARE

WHAT WE DO

1. Help to boost a sense of community and support the mission of NGFS.
2. Advocate for our school and students by empowering individuals to invest in our community through gifts of time, talent, and finances.
3. Host events throughout the school year that serve to raise funds for NGFS and engage with our families, alumni, and friends of the school.

1. Participate in Community Events

Participate in Community Events, such as Fun Run, Golf Tournament, and our Community 5k to meet fellow families and directly support the mission of New Garden Friends School.

2. Support with time, treasure and talents

All gifts to New Garden Friends School are valued and appreciated. Whether it be financial gifts, donation of items, or gifts of your time, New Garden Friends School depends on the support of its community to operate and thrive.

3. Connections and Advocacy

Philanthropy is a role that everyone in our community can take part in. This work goes beyond the giving of physical gifts. You can be an active Philanthropist through spreading the word about NGFS, asking for support from the people in your own lives, and informing others about why you believe in what we do!

GET INVOLVED
