

NGFS Health Screening App

How to Complete the Health Screening via the NGFS App:

Parents/guardians of students must complete a daily health screening for their child(ren). This will be done via the NGFS App (returning NGFS families may already have this on their phone).

1. Install the free app (search for New Garden Friends School) through the App Store or Google Play.

2. Access the COVID-19 Symptom Screening form on the App's home screen.

- Complete for each child before coming to school each day.
- You will receive an **"ALL CLEAR"** screen if you can proceed to campus. The school receives a real-time recording of responses. At arrival, a staff member will confirm the screening has been received.
- If you are unable to access the form via the NGFS App you can complete it on any web browser following [the link here](#).
- If you experience technical difficulties, a staff member will ask the questions in-person when you arrive.
