

PERMISSION TO SCREEN FOR SPEECH/LANGUAGE AND HEARING

Speech Pathologist, Martha Eanes, M.Ed., CCC-SLP, offers speech and hearing screenings to the children at New Garden Friends School. These screenings include:

- **Hearing screening using an audiometer** - This assessment takes about 5 minutes. If the child does not pass the initial screening, parents/guardians are notified, and the child is seen again in 2 weeks (at no additional charge). If the child does not pass a second time, families are referred to an audiologist or ENT specialist for further audiological assessment.
- **Screening of articulation, language concepts, sentence grammar, auditory memory, voice and fluency** - Teachers are asked to fill out a questionnaire that will assist in identifying any speech, language, listening or early literacy problems. This screening takes about 10 minutes.

These screenings will result in either 1) no further evaluation necessary, 2) a recommendation for a short assessment in specific problem areas identified, or 3) a recommendation for a more comprehensive assessment. A written summary will be provided with results and recommendations, if applicable.
